# Charter 2023

### **Our Vision**

Happy, confident lifelong learners

### **Mission Statement**

To provide an environment in which children continue to develop a love of learning and respect for others.

Kaikorai School provides an environment in which children continue to develop a love of learning and respect for others. Learning at Kaikorai School uses various teaching techniques, including Project-Based Learning (PBL). We want learning to be relevant, engaging and integrated across the curriculum.

Flexible learning spaces enable social and collaborative learning, integrated curriculum delivery, a mix of teacher-directed and student-directed teaching and learning, project work and relationship building. The spaces that have been designed and built over the previous two years are configured to suit the student's learning needs.

Kaikorai School is committed to leading PBL and Science, Technology, Engineering and Mathematics (STEM) education in Dunedin. Our commitment to PBL/STEM concepts includes a robust professional development programme for teachers, dedicated learning spaces and access to high-quality resources and working collaboratively with our local schools in the Hill Suburbs of Ōtepoti Dunedin.

### **Strategic Goals**

#### Resources

- Invest our resources into the remediation and redevelopment project to ensure the physical spaces, furniture, and equipment enable and support the school's pedagogy.
- Secure the funding required to deliver the agreed remediation and redevelopment project brief.
- Invest our financial resources into innovation and responsive learning programmes that improve student learning.
- Ensure the school remains financially sustainable after the remediation and redevelopment project.

#### People

- Equip our students with future-focused skills and attitudes so that they may be successful lifelong learners.
- Promote, encourage and provide a high standard of teaching.

- Support our staff by providing access to professional development that supports the transition into Innovative Learning Environments (ILEs).
- Integrate the community into learning programmes to provide an authentic context for learning

#### Learning

- Provide accelerated learning for children with identified learning needs
- Students will develop increased ownership of their learning.
- Improve learning outcomes in the essential areas of literacy and numeracy for every individual student.
- Provide innovative and collaborative experiences to enhance critical thinking and problem-solving skills through PBL (Project Based Learning).

## What We Value and the Kaikorai School Values

After staff, student, community and whānau consultation, the following are our cornerstone statements for the school. The new visuals and designs are representative of our local environment and context. The imagery reflects the maunga - Whānau Paki that

we see from all areas of our Kura.

### Our key beliefs about learning; to support the achievement of our vision and values.

- A "One School" philosophy that sees the staff and children striving to achieve our goals
- Achievement and success for all
- Recognise in our practice the varied cultures represented in our school
- Encourage family/whanau participation in school life and maximise the use of community support
- Everyone can learn. Learning is a lifelong process
- High expectations from learners, staff and parents/caregivers are critical to success
- Learning is profoundly influenced by social relationships
- Learners are unique, and they can make some of their own decisions about their learning
- Learning is a process of making sense of the world
- Learning is enhanced by learners being aware of how thinking and learning occur
- Learning is demonstrated when learners can apply their understandings in a new situation, in flexible and thought-provoking ways
- Learning has no boundaries. Learners demonstrate the ability to use their learning skills anytime, any place, anyhow, and with anyone
- Learning can be complex and nonlinear
- Self-belief and confidence affect motivation and learning
- Learning is more effective when information is embedded in purposeful and meaningful experiences
- Learning is enhanced when there is a partnership between the whanau/family and the school
- Learning happens when passionate, professional and knowledgeable staff recognise and include these beliefs in their programmes
- Learners who are resilient are more likely to be successful

### Māori Achievement

#### Kaikorai Primary School recognises the unique position of the Māori culture in the school.

We respect the unique position of Māori as Tangata Whenua (the indigenous people) of New Zealand and Te Reo Māori (Māori language) as an official New Zealand language.

"The curriculum acknowledges the principles of the Treaty of Waitangi and the bicultural foundations of Aotearoa New Zealand. All students have the opportunity to acquire knowledge of te Reo Māori me Ōna Tikanga." The New Zealand Curriculum, p. 9

#### We foster Tikanga Māori and Te Ao Māori through

- Teaching te reo Māori and incorporating reo is all we do each day (e.g. greetings, counting, mihi, basic vocabulary, pronunciation, place names).
- Incorporating Tikanga and Te Ao Māori in school life, daily karakia to start and end the school day, karakia before kai, waiata (songs) and investing in excellent tutoring in kapa haka, allowing time and space and accessibility for all to attend.
- Accessing Māori cultural advisors
- Integrating Māori and using resources that recognise New Zealand's dual cultural heritage through all curriculum areas where appropriate
- Fostering relationships with local iwi
- Holding whānau hui (family meetings).
- Each theme taught will have a Te Ao Māori focus.

• Encouraging staff to upskill in Tikanga, Te Ao and Reo Māori through offering external professional development opportunities, making these easily accessible.

• Providing 'in-house' professional development sessions learning about our local context, honouring Te Tiriti and ensuring all Māori students are taught as Māori.

If whānau request a higher level of Māori education, staff and whānau will discuss and explore options such as:

- Explaining existing programmes more fully
- Extending existing programmes if and as appropriate
- Providing in-school support and resources to further enhance inclusion of te reo and Tikanga Māori for the student
- Exploring other schools that may offer programmes closer to their expectations
- Using community expertise (people and organisations) to help with any of the above.

### **Cultural Diversity**

Kaikorai Primary School recognises the importance of cultural diversity within the school.

#### **Our programmes**

- Examine the similarities and differences that cultures share through our programmes.
- Celebrate other cultures and raise awareness of issues faced by other cultures.
- Provide teacher and support staff time for English speakers of other languages.
- Provide opportunities for children to learn other languages, such as French.

#### Kaikorai Primary School's goal for Pasifika children and children of other cultures is to:

- Ensure that children from other cultures have an equal opportunity to achieve their full potential academically, socially and through extracurricular pursuits.
- Recognise the importance of their own culture.
- Share their culture with other children.

- Utilise the experiences and knowledge of families and the broader community of children from other cultures in the school's programme.
- Ensure children are taught through an integrated curriculum.

## Kaikorai Primary School Strategic Goals

## Learning Strategic Goals

- 1. Provide accelerated learning for children with identified learning needs
- 2. Support students to develop increased ownership of their learning.
- 3. Improve learning outcomes in the essential areas of literacy and numeracy for every individual student.
- 4. Provide innovative and collaborative experiences to enhance critical thinking and problem-solving skills through PBL (Project Based Learning).

## **People Strategic Goals**

- **1.** Equip our students with future-focused skills and attitudes to become successful lifelong learners.
- 2. Promote, encourage and provide a high standard of teaching.
- **3.** Support our staff by providing access to professional development that supports the transition into flexible Learning Environments (FLEs).
- 4. Integrate the community into learning programmes to provide an authentic context for learning.

## **Resources Strategic Goals**

- 1. Invest our resources into the remediation and redevelopment project to ensure the physical spaces, ICT, furniture, and equipment enable and support the school's pedagogy.
- 2. Secure the funding required to deliver the agreed remediation and redevelopment project brief.
- 3. Invest our financial resources into innovative and responsive learning programmes that improve student learning.
- 4. Ensure the school remains financially sustainable after the remediation and redevelopment project.
