Kaikorai Primary School

Strategic Plan 2021 - 2023

Overview

Kaikorai School provides an environment in which children continue to develop a love of learning and respect for others. Learning at Kaikorai School uses a range of teaching techniques including Project Based Learning (PBL). We want learning to be relevant, engaging and integrated across the curriculum.

Flexible learning spaces enable social and collaborative learning, integrated curriculum delivery, a mix of teacher directed and student-directed learning, project work and relationship building.

The spaces that are being designed and built over the next two years will be configured in ways to suit the learning needs of the students.

Kaikorai School is committed to being a leader in PBL and Science, Technology, Engineering and Mathematics (STEM) education in Dunedin and New Zealand. Our commitment to PBL/STEM concepts includes a strong professional development programme for teachers, dedicated learning spaces and access to high-quality resources.

Mission Statement

To provide an environment in which children continue to develop a love of learning and respect for others.

Vision

Happy, confident, lifelong learners.

Values

Atawhai/Kind: To resources, the environment, yourself and others.

Wawata/Aspiring: Be a thinker, life long learner, the best you can be.

Mana Motuhake/Independent: Work hard, make good decisions, look after belongings.

Hikaka/Keen: Be confident, try new activities, make new friends.

Strategic Goals

Resources / We will:

- Invest our resources into the remediation and redevelopment project to ensure the physical spaces, furniture and equipment enable and support the school's pedagogy.
- Secure the funding required to deliver the agreed remediation and redevelopment project brief.
- Invest our financial resources into innovation and responsive learning programmes that improve student learning.
- Ensure the school is financially sustainable after the remediation and redevelopment project.

People / We will:

- Support our staff by providing access to professional development that supports the transition into Flexible Learning Environments (FLEs).
- Promote, encourage and provide a high standard of teaching.
- Equip our students with future focused skills and attitudes so that they may be successful lifelong learners.
- Integrate the community into learning programmes to provide an authentic context for learning.

Learning / We will:

- Provide accelerated learning for children with identified learning needs.
- Improve learning outcomes in the essential areas of literacy and numeracy for every individual student.
- Support students to develop increased ownership of their learning.
- Provide innovative and collaborative experiences to enhance critical thinking and problem-solving skills through PBL (Project Based Learning).
